Professional Summary

I'm a UI/UX Designer who recently completed professional training and enjoys creating clean, user-friendly digital experiences. I have worked on responsive websites and mobile app interfaces, turning ideas into wireframes, high-fidelity designs, and interactive prototypes in Figma. Along with design, I have basic frontend development skills in HTML and CSS, which help me create designs that are practical for development. I'm currently looking for an opportunity where I can continue learning and contribute to real-world products.

Projects

Zomato Food Delivery App UI

🌐 [View Project](#)

Designed a pixel-perfect food delivery application with modern UI. Created high-fidelity mockups, reusable components, and interactive prototypes using Figma. Used reusable components, Auto Layout, and interactive prototypes to create a smooth and consistent user experience.

Coffee Café Website Landing Page

🌐 [View Project](#)

Created a responsive landing page for a premium coffee brand with a modern and minimal style. Focused on clear content, typography, color selection, and call-to-action sections. Built reusable components and interactive prototypes to display the user journey.

RedTape E-Commerce Website

🌐 [View Project](#)

Ideated the shopping experience for an e-commerce website by improving navigation and simplifying the product browsing experience. Designed responsive layouts while using Smart Animate to make interactions feel more natural.

Personal Portfolio Website

🌐 [View Portfolio](#)

Designed and developed my own portfolio website to showcase my UI/UX work. Built the website using HTML, CSS, Git, GitHub, and Vercel. This project helped me understand how design decisions translate into development.

Professional Experience

UI/UX Designer (Internship)

May 2026 - Aug 2026

[Campus Sutras Pvt. Ltd.](#)

Worked on website and social media design projects using Figma, Adobe Illustrator and Canva. Maintained consistency by following design guidelines and reusable components. Collaborated with the team to revise designs based on feedback and project requirements.
